
Adobe Captivate 9: Beyond the Essentials

Two-Day Course Content

This course will teach individuals who want to gain advanced knowledge of using Adobe Captivate.

This advanced Adobe Captivate class will teach you create and produce video projects that will enable you to record screen actions in real-time.

This session goes into additional details with branching and aggregating your project. Learn about themes and templates that will make your life as a course creator easier.

Students will also learn about LMS reporting options and how to upload to an LMS.
