

Adobe Dreamweaver CC: Part 1

Course Length: 2 days

Course Description

Overview

In this course, you will learn to maintain and administer your website with Dreamweaver's site and page management tools.

This course is most valuable for individuals who have been given responsibilities to create or maintain a website. It will also be valuable for new web designers, web developers, and graphic artists who want to extend their skills in creating complete websites. Learning how to use Dreamweaver CC will enable the practitioner to create web pages and sites in the most efficient manner.
